

# AFTERCARE

## NANO BEAD EXTENSIONS

- Avoid washing hair 72 hrs after application.
- Shampoo hair at least twice a week using non protein/oily products. Sulphate free and moisture based products only.
- Brush hair before washing using recommended brush to separate bonds.
- Always wash hair forwards by bringing hair down either side to prevent matting.
- Massage scalp then squeeze excess through to mid lengths & ends. Do not massage or rub ends as matting may occur.
- Rinse with recommended shampoo & conditioner thoroughly (to prevent itching), then apply recommended after care products to ends.
- Separate individual extensions before drying, do not brush while wet.
- Heated electric tools can be used however, always iron or curl below the bonds.
- Maintenance is required every 4-6 weeks.
- Do not use uncovered elastics.
- Always dry hair thoroughly.
- Tie hair in plait at night.
